### Recommendation of the week:

#### Image Analysis with the TimeWaver

Is there a picture that fascinates you – and you wonder why? Using the TimeWaver, I make the energies and themes visible that a picture radiates – and reveal how they connect to you and your current life situation. This often leads to surprising and deeply touching insights.

### New Images

During my recent stay in Bavaria, I treated myself to a small but meaningful update: new photos – for my website, for social media, for my handouts, and most importantly, for myself.

Alongside sharing some of the results, I'd also like to introduce you to the two young photographers I had the pleasure of working with. Maurice and Felix truly impressed me with their eye for what matters and their remarkable professionalism.

Felix Aigner is 19 years old and a videographer based in Ingolstadt. Alongside his training in banking, he passionately creates content – from social media clips to high-quality image videos.

Maurice Klipp is also 19 years old and a passionate videographer and photographer from Bavaria. Starting out in his childhood bedroom, he now produces content for clients such as Audi, Siemens, and Schmidbauer. He's also a youth gymnastics coach and loves using his creativity to create real value.

### How to get in touch with them:

Together, they run Klipp.It – a modern media brand specializing in photo and video production. They support coaches, entrepreneurs, and personal brands in building a strong and authentic presence through creative, high-quality, and strategically crafted content.
